DEFINITIONS

The main definitions used in this guide are explained here

Affiliated Organization

National geothermal organization involved in geothermal research and activities that supports and promotes geothermal energy on a country level

Affiliated Member

An individual member belonging to the IGA through a group scheme by virtue of their membership in an Affiliated Organization. They have the same voting rights as IGA individual members, but their obligations and benefits may differ from those of individual members

AFFILIATED MEMBERSHIP MODEL & CONCEPT

MEMBERSHIP MODEL

MEMBERSHIP CONCEPT

**ALL INITIAL COMMUNICATION
BETWEEN THE IGA AND AN
AFFILIATED ORGANIZATION IS DONE
THROUGH A LIAISON OFFICER**

The liaison officers are appointed by each party and they are the main points of contact for the affiliated members

**AN AFFILIATED MEMBERS CAN ALSO
CHOOSE TO COMMUNICATE WITH US
DIRECTLY**

For this, an affiliated member should use the IGA ID received from a liaison officer, log in to the membership area and update the profile

a political table**

**Logo, products & services
display**

AFFILIATED MEMBERSHIP FEES

MEMBERSHIP FEE

How it is calculated

IGA affiliated membership fee presents an interdependence of two important factors: the size of an affiliated organization i.e. the amount of members and the country income group according to the World Bank classification.

Affiliated Organization
Size

World Bank Country
Income Group

IGA Affiliated Membership
Fee

AFFILIATED SIZE

Mega	>601
Super Big	451-600
Big	301-450
Middle	151-300
Small	81-150
Super Small	51-80
Tiny	21-50
Super Tiny	5-20

More information about the affiliated fees can be found on our website.

About International Geothermal Association

The IGA aims at being the leading world authority in matters concerning the research and development of geothermal energy by setting educational standards and offering worldwide energy solutions and in-house technical support, with special support for countries in early stages of geothermal development.

We connect the Global Geothermal Community, serving as a platform for networking opportunities aimed at promoting and supporting global geothermal development. We embody a wide variety of members ranging from academy to industry representatives.
