

PRESS RELEASE

Vallourec joins the International Geothermal Association

May 4, 2021
Bonn, Germany

Vallourec is a world leader in premium tubular solutions for the energy markets and for demanding industrial applications such as oil & gas wells in harsh environments, energy transition applications (CCUS, hydrogen, geothermal, solar, offshore wind), challenging architectural projects and high-performance mechanical equipment.

Vallourec's pioneering spirit and cutting-edge R&D open new technological frontiers. With close to 17,000 dedicated and passionate employees in more than 20 countries, Vallourec works hand-in-hand with its customers to offer more than just tubes: it delivers innovative, safe, competitive and smart tubular solutions, to make every project possible.

- *Why are we joining the IGA?*
- *Further developing geothermal energy will require standardizing existing practices in order to increase efficiency and reduce the capital expenditures needed to develop new projects. Vallourec is proud to bring its long standing expertise of Oil & Gas and geothermal wells to the IGA and is eager to contribute to its standardization efforts.*

*Pierre Etienne Bougon
Business Development Manager*

“In the coming decade we will see the geothermal sector scale up to a mature energy provider that is able to offer a cost-effective, clean, baseload supply to its customers.

I am extremely pleased to welcome Vallourec to our corporate membership as with Vallourec onboard we can make substantial steps driving the standardisation efforts needed for geothermal technologies to be deployed cost-effectively around the globe. I look forward to our collaboration very much”, -

*Executive Director
Dr Marit Brommer*
